PERMIT APPLICATIONS

2a. McLean Game Refuge – Replacement of Spring Pond water outflow system

Stephen Paine, Director McLean Refuge, explained the proposed project. LR Enterprises, Inc. provided drawings. The current outflow system is ancient. The ceramic tile twelve inch pipe is cracking and will likely fail in the near future. The plan is to replace the old pipe with a made from modern materials twenty-four inch PVC pipe.

To execute the project the pond will be drawn down to access and remove the old pipe. The new pipe will be installed and the pond will refill naturally. This is a simple process and would be done in the fall.

ANY OTHER PROPER BUSINESS

Mr. Perry asked if there were any plans to control flooding over Mechanicsville Road. The watershed in that location is substantial. Any attempts to make improvements would require considerable alterations to the area. Currently no such plans exist.

The next monthly meeting is March 11, 2015 at 7:00 p.m. in the Town Hall meeting room.

ON A MOTION by Mr. Cahoon, seconded by Mr. Van Nostrand, the commission unanimously agreed to end the meeting at 7:18 p.m. (5-0-0)

Respectfully submitted,

Sandra Yost
Recording Secretary
