

Protecting the Developing Brain

Join guests **Deb Shulansky** from the Brain Injury Alliance of Connecticut and **Rebecca MacEwen** from the GMHS Athletic Department to learn about concussion symptoms, treatments and screening. Part two of the evening will be led by **Dr. Kaminier** from UCONN Health Center. He will provide parents with the latest information on adolescent brain development and the risks this development poses to youth who engage in underage substance use including marijuana.

Tuesday October 15th

7:00 PM

Youth Service Building

15C North Granby Rd
