INDEPENDENT AUDITORS' REPORT

Board of Finance
Town of Granby, Connecticut

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Granby, Connecticut, as of and for the year ended June 30, 2005, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Granby, Connecticut's management. Our responsibility is to express opinions on these financial statements based on our audit.

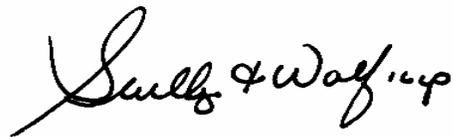

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Granby, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 21, 2005 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis and budgetary comparison information on pages 3 through 15 and 44 through 47 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in black ink, appearing to read "Sully & Wolf". The signature is written in a cursive, flowing style.

TOWN OF GRANBY, CONNECTICUT

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2005

This Annual Financial Report is compiled using the financial reporting requirements of the Government Accounting Standards Board (GASB) Statement 34. GASB Statement 34 requires that we, as the managers of the Town of Granby, prepare a report that focuses on our most important, or "major" funds, including the general fund.

Fund statements measure and report the "operating results" of many funds by measuring cash on hand and other assets that can easily be converted to cash. These statements show the short-term performance of individual funds using the same measures governments use when financing current operations. On the other hand, if we charge a fee to users for services, fund information will continue to be based on accrual accounting. Budgetary compliance remains an important part of governmental accountability. Our financial statements include the *original* budget as well as the final amended budget.

Our hope is to provide you, the reader, with an objective and readable analysis of our financial performance for the year. Taken together, the following statements should enable you to assess whether Granby's financial position has improved or deteriorated as a result of the year's operations. The annual financial report includes government-wide financial statements prepared on the accrual basis for all of your government's activities. Accrual accounting measures not just current assets and current liabilities, but long-term assets and liabilities as well. It also reports all revenues and all costs of providing services each year, not just those received or paid in the current fiscal year (or shortly thereafter).

In summary, the government-wide financial statements will assist the reader to:

- Assess the finances of Granby in its entirety, including the year's operating results;
- Determine whether our overall financial position improved or deteriorated;
- Evaluate whether our current-year revenues were sufficient to pay for current-year services;
- See the costs of providing you the services you have requested of us;
- See how we finance the programs you have asked for – through user fees and other program revenues versus general tax revenues;
- Understand the extent to which your government has invested in capital assets, including roads, bridges, schools, parks, and other infrastructure assets;
- Make better comparisons between governments.

The Annual Financial Report includes the following information and financial statements as defined by GASB Statement 34:

- * **Management's Discussion and Analysis (MD&A)** – An introduction to the basic financial statements and an analytical overview of the government's financial activities. The MD&A provides an objective and easily readable analysis of the Town's financial activities based on currently known facts, decisions, or conditions. The MD&A
 - Includes comparisons of the current year to the prior year based on government-wide information;
 - Provides an analysis of our overall financial position and the results of operations to assist you in assessing whether our financial position has improved or deteriorated as a result of the year's activities;
 - Analyzes significant changes in fund and major budget variances;
 - Describes capital asset and long-term debt activity during the year;
 - Concludes with a description of currently known facts, decisions, or conditions that are expected to have a significant effect on our financial position or the results of our operations.

* Basic Financial Statements

- **Government-Wide Financial Statements** are designed to provide readers with a broad overview of the Town of Granby's finances, in a manner similar to private-sector business.
 - **Government-Wide Financial Statements** include a *statement of net assets* which presents information on all of the Town of Granby's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town of Granby is improving or deteriorating. The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused employee vacation and sick leave). The statement of activities is prepared using the economic resources measurement focus and the accrual basis of accounting. These statements report all assets, liabilities, revenues, expenses, and gains and losses of the government. Both of the government-wide financial statements distinguish functions of the Town of Granby that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, public safety, public works and environment, education, and recreation and social services.
 - Fiduciary activities whose resources are not available to finance our governmental programs are excluded from these statements.

Capital assets, including infrastructure, are reported along with accumulated depreciation expense in the statement of net assets. Net assets are reported as capital assets net of related debt, restricted, and unrestricted. Permanent endowments or permanent fund principal amounts included in restricted net assets are shown as either expendable or nonexpendable.

Expenses are presented reduced by program revenues, resulting in a measurement of "net (expense) revenue" for each of the government's functions. Program expenses include all direct expenses. General revenues such as taxes and special and extraordinary items are reported separately, ultimately arriving at the change in net assets for the period. Special items are significant transactions or other events that are either unusual or infrequent and are within the control of management.

- **Fund Financial Statements** are a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or *objectives*. The Town of Granby, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.
 - **Governmental fund** financial statements include financial data for the general fund, special revenue funds, capital projects, debt service, and permanent funds and are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. **Governmental funds** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. The focus of governmental funds is narrower than that of the government-wide financial statements, thus it is useful to compare the information presented for *governmental activities* in the government-wide financial statements with similar

information presented for *governmental activities* in the long-term impact of the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The Town of Granby maintains thirty-six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital projects fund, both of which are considered to be major funds. Data from the other thirty-four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the thirty-four nonmajor governmental funds is provided in the form of *combining statements* under Supplemental Information, *Exhibits B1 and B2*. The Town of Granby adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with budget appropriations.

- *Proprietary fund* financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. The Town of Granby maintains one type of proprietary fund, an internal service fund. *Internal service funds* are an accounting device used to calculate and allocate costs internally among the Town of Granby's various functions. The Town uses an internal service fund to account for its employee health benefits, collecting employer and employee payments and disbursing payments as required. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.
- *Fiduciary fund* financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the Town of Granby's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Fund financial statements are presented for primary government and proprietary funds. Governmental fund statements include a balance sheet and a statement of revenues, expenditures, and changes in fund balances. Proprietary fund statements are comprised of a statement of net assets, a statement of revenues, expenses, and changes in net fund assets, and a statement of cash flows. A summary reconciliation of the fund and government-wide statements accompanies the fund financial statements.

Separate columns are shown for the general fund and for other major governmental funds. Major funds are funds whose revenues, expenditures/expenses, assets, or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental or enterprise funds and at least 5 percent of the aggregate amount for all governmental and enterprise funds. Non-major funds are reported in the aggregate in a separate column as are internal service funds on the proprietary fund statements.

Governmental fund balances are segregated into reserved and unreserved categories.

Proprietary fund net assets are reported in the same categories required for government-wide financial statements. Proprietary fund statements of net assets distinguish between current and non-current assets and liabilities and display restricted assets.

The statements distinguish between operating and non-operating revenues and expenses in proprietary fund statements of revenues, expenses, and changes in net fund assets. At the bottom of these

statements, we reflect capital contributions, contributions to permanent and term endowments, special and extraordinary items, and transfers in arriving at the all-inclusive change in fund net assets.

We present separate fiduciary fund statements used to report assets held in a trustee or agency capacity for others and which cannot be used for our own programs. We must show a statement of fiduciary net assets and a statement of changes in fiduciary net assets. Fiduciary fund statements also disclose interfund loans, interfund services provided and used, and interfund transfers.

➤ Notes to the Financial Statements

- Consist of notes that provide information essential to your understanding of the data provided in the government-wide and fund financial statements.

➤ Required Supplementary Information (RSI)

- Consists of MD&A and budgetary comparison schedules.
- Includes budgetary comparison schedules for the general fund to demonstrate whether resources were obtained and used in accordance with the legally adopted budget.

The combining statements referred to earlier in connection with nonmajor governmental funds and fiduciary funds are presented immediately following the required supplementary information.

As management of the Town of Granby, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2005. We encourage readers to consider the information presented here and in the Town's financial statements, *Exhibits I to IX*.

Financial Highlights

- The assets of the Town of Granby exceeded its liabilities at the close of the most recent year by \$32,944,263 (net assets). Of this amount, \$9,159,922 (*unrestricted net assets*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$4,301,342. This increase was due to over \$6.5 million in capital outlays for the school renovation projects and other Town improvements coupled with the overall reduction in debt in excess of \$987 thousand. These gains were offset somewhat by capital expenditures not yet permanently funded.
- As of the close of the current fiscal year, the Town's governmental funds reported a combined ending fund balance of \$1,494,555, a decrease of \$3,451,382 in comparison with the prior year due to expenditures in the capital projects account. *Unreserved fund balances* amount to a collective negative \$4,944,783 reflecting a temporary imbalance of expenditures over revenues in the capital projects account.
- At the end of the 2005 fiscal year, unreserved fund balance for the general fund was \$3,420,529, or 10.94% of total general fund expenditures of \$31,277,755.
- The Town of Granby's bonded debt decreased by \$987,500 (4.58%) during the current fiscal year. The Town issued \$9,750,000 of new bonds but retired \$10,737,500 of outstanding long-term debt.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town of Granby, assets exceeded liabilities by \$32,944,263 at the close of the most recent fiscal year.

By far the largest portion of the Town's net assets, \$22,642,784 (68.73%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Town of Granby uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of

related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1. Net Assets

	Governmental Activities 2005	Governmental Activities 2004
Current and Other Assets	\$16,010,087	\$11,351,668
Capital Assets.....	<u>49,724,003</u>	<u>43,208,183</u>
Total Assets.....	<u>65,734,090</u>	<u>54,559,851</u>
Long-Term Debt Outstanding	22,042,758	23,790,231
Other Liabilities	<u>10,747,069</u>	<u>2,126,699</u>
Total Liabilities	<u>32,789,827</u>	<u>25,916,930</u>
Net Assets:		
Invested in Capital Assets, net of debt	22,642,784	20,614,636
Restricted.....	1,141,557	1,102,307
Unrestricted.....	<u>9,159,922</u>	<u>6,925,978</u>
Total Net Assets	<u>\$32,944,263</u>	<u>\$28,642,921</u>

A portion of the Town’s net assets, \$1,141,557 (3.47%), represents resources that are subject to external restrictions on how they may be used. \$1,122,692 is set aside for debt service and \$18,865 is restricted for expendable trust purposes. The remaining balance of *unrestricted net assets*, \$9,159,922, may be used to meet the government’s ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town of Granby is able to report positive balances in all three categories of net assets, both for government as a whole, as well as for its separate governmental activities. The same situation held true for the prior fiscal year.

The government’s net assets increased by \$4,301,342 during the current fiscal year. The Town brought in total general revenues of \$25,816,065 which exceeded its net program expenditures of \$21,514,723 by the amount of the net asset increase. Gross expenses of \$33,791,592 were offset by \$2,683,210 in charges for services, \$5,954,856 in capital grants and contributions, and \$3,638,803 in operating grants and contributions. Of the net program expenditures, \$14,241,054 was accounted for by the Board of Education. Net public works and environment expenditures accounted for \$2,540,730, public safety, \$1,696,466, general government, \$1,472,921, interest on long-term debt, \$946,343, and recreation and social services, \$617,209. The majority of the Town’s revenue of \$25,035,707 came in the form of local property tax collections, \$328,701 of unrestricted investment earnings, and \$451,657 in miscellaneous and investment income.

Governmental activities. Governmental activities increased the Town’s net assets by \$4,301,342, accounting for 100% of the total growth in our net assets. Key elements of this increase are as follows:

Table 2. Changes in Net Assets

	Governmental Activities 2005	Governmental Activities 2004
Revenues:		
Program Revenues:		
Charges for Services.....	\$ 2,683,210	\$ 2,437,317
Operating Grants and Contributions	5,954,856	5,977,784
Capital Grants and Contributions	3,638,803	1,209,259
General Revenues:		
Property Taxes	25,035,707	23,440,114
Grants and Contributions not Restricted to Specific Purpose.....	225,564	263,922
Unrestricted Investment Earnings ...	328,701	125,437
Other General revenues	<u>226,093</u>	<u>33,732</u>
Total Revenues	<u>38,092,934</u>	<u>33,587,565</u>
Program Expenses:		
General Government	2,195,708	2,617,505
Public Safety.....	2,010,012	1,966,836
Public works and environment	2,949,836	2,546,818
Recreation and Social Services.....	1,189,469	1,141,675
Education.....	24,344,532	22,409,637
Interest on Long-Term Debt.....	<u>1,102,035</u>	<u>1,254,418</u>
Total Program Expenses	<u>33,791,592</u>	<u>31,936,889</u>
Increase in Net Assets.....	<u>\$ 4,301,342</u>	<u>\$ 1,650,676</u>

Total revenues from the prior year increased \$4,505,369 (13.41%) largely as a result of increases in real estate, personal property, and motor vehicle taxes coupled with an influx of State school building construction grants applicable to expenditures at the Kearns, Wells Road, and Kelly Lane Schools. Expenditures rose \$1,854,703 (5.81%) almost entirely due to increased costs of education. These increases were offset somewhat by reductions in general government (\$422 thousand) expenditures.

Revenues

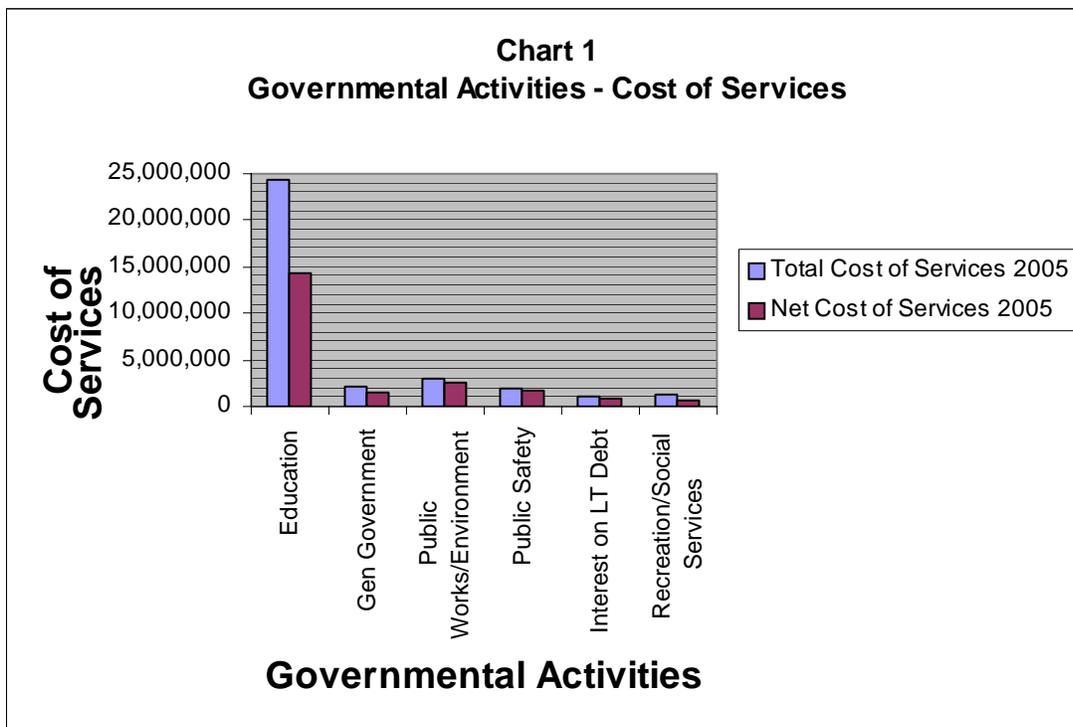

- Property taxes collected increased by \$1,595,593 (6.81%) over the prior year.
- Capital grants increased \$2,429,544 , over two hundred percent, fueled by the influx of State of Connecticut school building progress payment grants for the ongoing school renovations.
- Rising interest rates and an unexpended capital funding balance contributed to a \$203 thousand (162%) jump in unrestricted investment revenues.

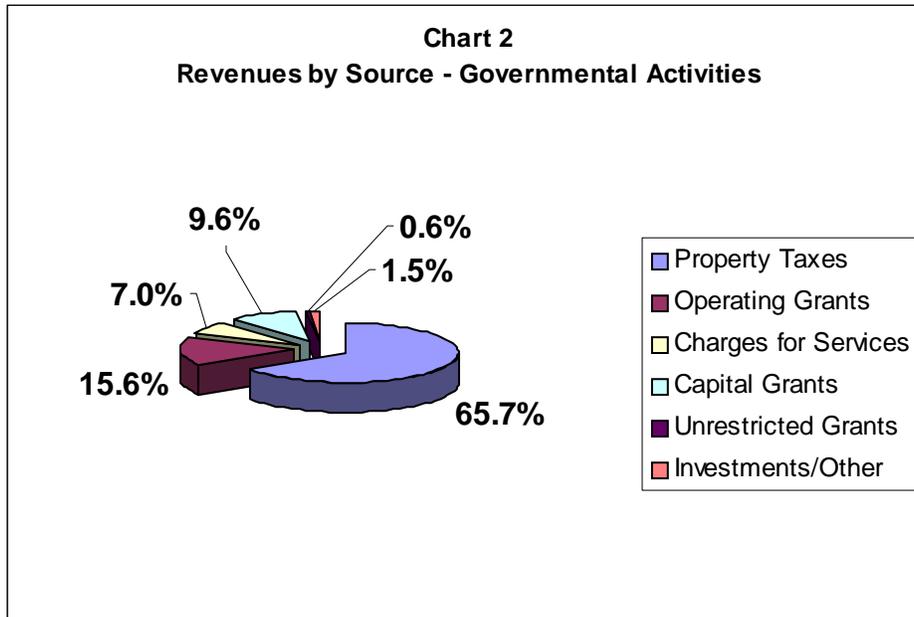

Expenditures (gross)

- Education costs rose \$1.935 million (8.63%) over the prior year due mainly to employee salary and benefit improvements embedded in collective bargaining agreements and non-capital expenditures related to ongoing renovation projects.
- General government expenditures dropped \$422 thousand (13.41%) from FY 2004 due in part to reductions in fringe benefits of over \$241 thousand.
- Public works and environment expenditures rose \$403 thousand (15.82%) as a result of scheduled collective bargaining increases and the effects of severe winter weather overtime.

Chart 1 following presents the costs of each of the Town's six largest programs as well as each program's net cost (total cost less revenues generated by the activities). The Net Cost shows the financial burden that was placed on the Town's taxpayers by each of these functions.

Chart 2 following indicates the sources of all Town revenues and the percentage these individual revenues represent of total Town revenue.

For the most part, increases in gross expenses of \$1,854,703 (5.81%) closely parallel inflation and increases in the Town's population. They reflect no new general government programs and are largely the result of implementation of contractual collective bargaining increases.

Financial Analysis of the Government's Funds

As noted earlier, the Town of Granby uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town of Granby's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$1,494,555, a decrease of \$3,451,382 in comparison with the prior year. Unreserved fund balance, which is available for spending at the government's discretion, amounts to a net negative \$4,944,783. While the general fund and other governmental funds post positive fund balances (\$3,766,823 and \$3,586,694, respectively), the capital projects fund reflects a negative fund balance of \$5,858,962 caused by capital expenditures having been made before the long-term funding was put in place. This deficit will disappear once the timing of cash flows in and out corrects itself. Reserved fund balance in the amount of \$6,439,338 is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period \$346,294; 2) to pay debt service of \$1,141,557; and 3) for future capital project expenditures \$4,951,487.

The general fund is the chief operating fund of the Town of Granby. At the end of the current fiscal year, unreserved fund balance of the general fund was \$3,420,529 while total fund balance reached \$3,766,823. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 10.94% of total general fund expenditures of \$31,277,755 while total fund balance represents 12.04% of that same amount.

The fund balance of the Town's general fund increased by \$400,165 during the current fiscal year as a result of larger than expected local tax collections (\$508 thousand), more intergovernmental grants than budgeted (\$213 thousand), better returns on the Town's investments (\$112 thousand), and a jump in Town Clerk fees (almost \$230 thousand). In addition, all Town departments spent less than their budget with the effect of "saving" \$382 thousand. A substantial portion of these favorable budgetary operations, \$1,678,101, was transferred to other funds at the end of the year, primarily capital project accounts to fund continuing capital improvements throughout the Town.

Proprietary fund. The Town of Granby's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. As indicated earlier, we use an internal service fund to account for employee health benefits.

Net assets of the internal service fund at the end of the year amounted to \$1,141,010, down \$67 thousand from FY 2004, all of which is unrestricted. The total drop in net assets for the fund came about due to a modest imbalance between administrative expenses and medical benefits paid out (\$3,164,232) and contributions paid in (\$3,070,422).

General Fund Budgetary Highlights

Differences between the original expenditure budget (\$32,614,291) and the final amended budget (\$32,741,206) were relatively minor (\$126,915 net increase in appropriations). The revenue budget remained unchanged at \$31,572,291. The significant actions, approved by the Board of Finance, are noted below.

- \$6,000 in net additional funding for general government;
- \$23,000 budget decrease allocated to public safety taken primarily in police operations;
- \$23,000 extra funding to public works and environment for snow removal and equipment maintenance;
- \$36,915 additional appropriation for the Board of Education;
- \$80,000 additional transfers out to the capital projects fund;
- \$4,000 new police grants.

All of these increased appropriations were to be paid from available fund balance and reductions in other budget line items as indicated. During the year, actual revenues exceeded budgeted revenues by \$1,202,721 and actual expenditures were \$381,895 less than budget. As a result, no drawdown of general fund balance was required.

Capital Asset and Debt Administration

Capital assets. The Town of Granby's investment in capital assets for its governmental assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges. The total net increase in the Town's investment in capital assets for the current fiscal year, before depreciation, was \$8,105,827.

Major capital asset events during the current fiscal year included the following:

- \$206,700 of land improvements were made for general Town use, the library, and public works and environment;
- \$7,216,278 of new construction in progress was added, as noted below:
 - \$13,005 High School Renovations
 - \$10,764 Municipal Complex
 - \$10,608 Kearns Classroom

- \$105,222 repairs to Town bridges
 - \$4,138 repairs to Canton Road
 - \$6,657,967 ongoing renovations at Wells Road School
 - \$414,574 construction design work at Kelly Lane School
- The Town purchased \$200,446 of new vehicles and equipment comprising, in part, new police vehicles and police equipment and various lease payments for public works machinery. The Board of Education expended \$194,411 on technology leases and new vehicles and equipment. At the same time, Granby disposed of \$123,395 worth of old or unserviceable equipment and vehicles.

Table 3. Capital Assets at Year-end (Net of Depreciation)

Additional information on the Town of Granby’s capital assets can be found in Note 6 on page 34 of this report.

Long-term debt. At the end of the current fiscal year, the Town of Granby had \$20,595,500 of long-term bonded debt outstanding and \$9,945,000 of short-term debt outstanding in the form of bond anticipation notes (BANs). One hundred percent of Granby’s outstanding bonds and notes is general obligation debt secured by the full faith and credit of the Town.

	<u>\$28,150,000</u>		<u>\$9,945,000</u>		

The Town of Granby's bonded debt decreased by \$987,500 (4.58%). During FY 2005, we took advantage of historically low interest rates and refunded \$939,735 of our outstanding 1998 school bonds, \$1,595,276 of our outstanding 1998 public improvements bonds, and \$6,510,000 of our outstanding 2000 school bonds. Through the refunding, we expect to save over \$480 thousand in future principal and interest costs.

We issued bond anticipation notes (BANs) in the amount of \$9.945 million as shown above to partially fund our share of the town and school construction and renovation projects approved by the voters.

The State of Connecticut subsidizes a portion of the Town's cost of school bond principal and interest for such bonds issued prior to 1996. As of June 30, 2005, the Town expects to receive \$2,386,412 in school bond principal payments from the State over the life of the remaining outstanding school bonds. As a result, the Town's *net bonded debt* is considered to be \$28,151,088.

For the first time, the Town sought and received a credit rating from Standard & Poor's Corporation (S&P), one of the three nationally recognized municipal credit rating agencies. Our S&P rating of "AA" represents a two-grade jump from our existing Moody's Investors Service rating of A1.

State statutes limit the amount of general obligation debt a governmental entity may issue to 7 times its tax collections plus interest and lien fees. For June 30, 2005, the maximum amount of borrowing permitted under the formula would be \$176,243,347. With net borrowings of \$28,151,088, the Town's outstanding general obligation debt is \$148,092,259 below the maximum debt limitation (see "Statement of Statutory Debt Limitation" on page 72 of this report).

Additional information on the Town of Granby's long-term debt can be found in Note 8 on page 37 of this document.

Economic Factors and Next Year's Budget

- The unemployment rate for the Town of Granby was 4.2% as of June 30, 2005, which is an increase from a rate of 2.6% a year ago. This compares favorably to the state's average unemployment rate of 5.4% and the national average rate of 5.2%.
- Inflationary trends in the region compare favorably to the national indices.

The FY 2005 – 06 budget incorporates several goals and objectives:

- ✓ Continue to increase the effectiveness and efficiency of Town services through technology and best practice methods;
- ✓ Maintain the present level of Town employment by continuously evaluating services and examining alternative methods of service delivery;
- ✓ Maintain a sufficient, yet modest, general fund balance (5% - 7.5%) to meet unexpected needs and retain flexibility to fund ongoing programs;

- ✓ Make cash payments for capital expenditures as appropriate or negotiate equipment lease purchases to avoid major tax increases;
- ✓ Provide long range operating and capital forecasts to meet “statement of commitments” and to better predict capital needs;
- ✓ Charge reasonable user fees to fund certain essential, and some non-essential but desirable, programs, projects, or non-mandatory services.

Overall, Granby’s budget for FY 2005 – 06 rose \$1,294,515 (3.97%) to \$33,908,806. Of this increase, \$1,268,272 (97.97%) was attributable to the Board of Education. The local real estate, personal property, and motor vehicle tax levy grew \$1,777,153 (7.38%) to help meet the new budget demands. To meet the levy, the mill rate grew from 31.97 to 33.41 (4.50%). Use of fund balance to offset further tax increases amounted to \$207,000, down \$835,000 from the prior year.

General government expenditures of \$7,450,757 are 21.97% of the total budget while the Board of Education share increased 1.27% to 65.94% of the budget. The remainder of the budget is devoted to capital improvements (\$1,151,516 – 3.4%) and debt service (\$2,942,803 – 8.68%). The general government portion of the new budget rose \$354,043 (4.99%) over last year through small increases in all areas with no significant increases in any particular line item. Debt service, almost all of which is education related, rose by \$60,500 to \$2,942,803 reflecting estimated new interest expense relating to short-term financing for the school projects.

The Board of Education realized its increases in the areas of certified salaries and benefits (\$698 thousand), utilities (\$220 thousand), transportation (\$94 thousand), tuition (\$87 thousand), and text books and library (\$96 thousand). Of the Board increases, the salary and benefit impact was driven by existing contractual agreements, new building maintenance requirements, and the addition of new staff.

All of these factors were considered in preparing the Town of Granby’s budget for the 2006 fiscal year. During the current fiscal year, unreserved fund balance in the general fund increased to \$3,420,529. The Town has appropriated \$207,000 of this amount for spending in the 2006 fiscal year budget. It is intended that this use of available fund balance will avoid the need to raise taxes or charges during the 2006 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Town of Granby’s finances for all those with an interest in the government’s operations. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town Manager or to the Finance Officer, Town of Granby Town Hall, 15 North Granby Road, Granby, CT 06035-2125.

Fund balance (deficit), June 30, 2005	<u>\$ 3,766,823</u>	<u>\$ (5,855,962)</u>	<u>\$ 3,586,694</u>	

18

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period	6,524,972
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds	(515,661)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which repayments exceeded proceeds	1,709,990
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds	100,435
Internal service funds are used by management to charge the costs of risk management to individual funds. The net revenue (expense) of the internal service fund is reported with governmental activities (Exhibit VI)	(67,012)
Change in net assets of governmental activities (Exhibit II)	<u>\$ 4,301,342</u>

TOWN OF GRANBY, CONNECTICUT

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2005**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Granby (the "Town") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the Town are described below.

A. *Reporting Entity*

The Town operates under a Charter as revised in November 2002. The form of government includes an elected Board of Selectmen, consisting of a First Selectman and four other members, an elected seven member Board of Education, and an elected six member Board of Finance.

Generally, the legislative power of the Town is vested with the Board of Selectmen. The Board of Selectmen may enact, amend or repeal ordinances and resolutions. The administration of Town offices and agencies, with the exception of the Board of Education, is the responsibility of the Town Manager who is appointed by the Board of Selectmen.

The Board of Finance is responsible for financial and taxation matters as prescribed by Town Charter and Connecticut General Statutes, and is responsible for presenting fiscal operating budgets for Town Meeting approval. The Town has the power to incur indebtedness by issuing bonds or notes as provided by Town Charter and Connecticut General Statutes.

B. *Government-Wide and Fund Financial Statements*

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The various funds included in the financial statements are described below:

Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed.

General Fund - the primary operating fund of the Town. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property taxes, state and federal grants, licenses, permits, charges for service, and interest income.

Special Revenue Funds - account for revenue derived from specific sources (other than major capital projects) that are restricted by legal and regulatory provisions to finance specific activities.

Capital Project Funds - account for all financial resources used for the acquisition or construction of major capital facilities not being financed by proprietary funds.

Permanent Funds - used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the Town's programs.

Proprietary Funds

Proprietary funds are used to account for activities that are similar to those often found in the private sector. These funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. The following is the Town's proprietary fund:

Internal Service Funds - account for the financing of goods or services provided by one department to other departments or agencies of the Town on a cost-reimbursement basis. The Self Funded Health Insurance Fund is the Town's only internal service fund.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations, and other governments. Fiduciary funds are not included in the government-wide statements. The fiduciary funds are as follows:

Pension Trust Fund - accounts for the Public Employee Retirement System.

Agency Funds - are custodial in nature (assets equal liabilities) and do not involve measurement of results of operation. The High School Activity, Middle School Activity, Kelly Lane School Activity, Kearns School Activity, Wells Road School Activity and Contract Security Fund are the Town's agency funds.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, charges for services, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received.

The Town reports the following major governmental funds:

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Additionally, the Town reports the following fund types:

The Internal Service Fund accounts for risk management activities of the Town.

The Pension Trust Fund accounts for the activities of the Town's Pension Plan, which accumulates resources for pension benefit payments to qualified Town employees.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Town has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between certain Town's functions because the elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's internal service fund are charges to customers for services. Operating expenses for the internal service fund include the cost of benefits and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Town to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and certain other investments as described in Note 4.

Investments for the Town, are reported at fair value.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities are reported in the government-wide financial statements as "internal balances". All trade and property tax receivables, are shown net of an allowance for uncollectibles.

Based upon the annual budget as adopted, the Board of Finance establishes the tax rate to be levied on the taxable property for the ensuing year.

Property taxes are levied in June on all assessed property on the grand list of October 1 prior to the beginning of the fiscal year. Real and personal property tax bills in excess of \$100 are payable in two installments, July 1 and January 1; and motor vehicle taxes are payable in one installment on July 1. Taxes become delinquent 30 days after the installment is due. Delinquent taxes are billed at least twice a year, with interest at the rate of 1.5 percent per month. In accordance with state law, the oldest outstanding tax is collected first. Outstanding real estate tax accounts are normally lien-ed each year prior to June 30 with legal demands and alias warrants used in the collection of personal property and motor vehicle tax bills. Additional property taxes are assessed for motor vehicles registered subsequent to the grand list date through July 31, and are payable in one installment which is due January 1.

Property tax revenues are recorded as receivable on the due date and are recognized as revenues to the extent collected during the fiscal year or collected soon enough thereafter (within sixty days) to be used to pay liabilities of the current period. Property taxes receivable not expected to be collected during the available period are reflected as deferred revenue in the fund financial statements. Property taxes receivable at June 30, 2005 is stated net of allowance for estimated uncollectible amounts of \$35,000.

The Town levies special assessments for the purpose of financing the construction of sanitary sewers. Such assessments are collectible in installments as provided by the Connecticut General Statutes. Assessment revenues are recognized when they are collected.

F. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government, is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings.....	40-50
Building improvements	15-25
Public domain infrastructure.....	30-60
Vehicles	3-15
Office equipment	5-10
Computer equipment	5-10

H. Compensated Absences

A limited amount of vacation time earned may be accumulated by employees until termination of their employment. Vacation leave is valued using current salary costs, as well as any salary related payments that are directly and incrementally connected with leave payments to employees. Sick leave accruals are also based on current salary costs as well as salary-related payments.

I. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount. Significant bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. *Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets*

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds”. The details of this \$22,034,130 difference are as follows:

Bonds payable	\$20,592,500
Less: Deferred charge on refunding (to be amortized as interest expenses)	(705,000)
Accrued interest payable	207,089
Capital leases payable.....	996,057
Compensated absences	715,325
Landfill closure.....	136,400
Net pension obligation.....	<u>91,759</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities	<u>\$22,034,130</u>

B. *Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities*

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense”. The details of this \$6,524,972 difference are as follows:

Capital outlay	\$ 8,197,422
Depreciation expense.....	<u>(1,672,450)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ 6,524,972</u>

Another element of that reconciliation states that “the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and

amortized in the statement of activities”. The details of this \$1,709,990 difference are as follows:

Debt issued or incurred:	
Issuance of refunding bonds	\$(9,750,000)
Capital lease proceeds.....	(322,500)
Issuance costs of refunding bonds	53,787
Principal repayments:	
General obligation debt	1,692,500
Capital leases	339,990
Payment to escrow agent for refunding	<u>9,696,213</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$1,709,990</u>

Another element of that reconciliation states that “some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds”. The details of this \$100,435 difference are as follows:

Compensated absences.....	\$ 55,295
Accrued interest	74,010
Net pension obligation	(918)
Landfill closure	13,000
Loss on disposal of fixed assets	<u>(40,952)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$100,435</u>

3. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

For purposes of preparing the annual budget, the Town Manager compiles preliminary estimates of all departments and agencies, with the exception of the Board of Education, for presentation to the Board of Selectmen. After making such alterations or changes as it deems necessary, the Board of Selectmen presents the compiled budget to the Board of Finance. The Board of Education submits its estimates directly to the Board of Finance.

The Board of Finance may make such revisions to the Selectmen’s and Education budget estimates as it deems desirable, and then holds public hearings and presents a proposed budget to the Annual Town Meeting held on the fourth Monday in April.

Subject to certain restrictions, additional appropriations may be approved by the Board of Finance upon recommendation of the Board of Selectmen and certification on availability of the funds by the Town Manager. In this function, department budget accounts serve as the legal level of control. As a result of additional appropriations during fiscal year 2005, the original General Fund operating budget was increased by \$126,915.

Unencumbered appropriations lapse at the end of the fiscal year except for those in the capital projects and special revenue funds. Appropriations for these funds are continued until completion of the applicable projects which often last more than one fiscal year.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute

expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

Budgets for Special Revenue Funds which are utilized to account for specific grant programs are established in accordance with the requirements of the grantor agencies. In some instances, such budgets comprehend more than one fiscal year or a fiscal period which does not coincide with the Town's fiscal year.

Legal authorization for Capital Projects is provided by the related bond ordinances and/or intergovernmental grant agreements. Capital appropriations do not lapse until the purpose for which they are designated is completed.

Expenditures which will exceed the adopted budgets can be made only upon the authority of a supplemental appropriation or an approved budgetary transfer.

B. Deficit Fund Equity

The following funds had fund or net asset deficits as of June 30, 2005:

Capital Projects Fund.....	\$5,858,962
Special Revenue Funds:	
Trail Link Fund	\$3,914

These deficits will be reduced or eliminated through permanent financing, the receipt of grant funds or future transfers from the General Fund.

4. CASH, CASH EQUIVALENTS AND INVESTMENTS

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a "qualified public depository" as defined by Statute, or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit in an "out of state bank", as defined by the Statutes, which is not a "qualified public depository".

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: (1) obligations of the United States and its agencies; (2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof; and (3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds does not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF) and the State Tax Exempt Proceeds Fund (TEPF). These investment pools are under the control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board, and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

A. Cash and Cash Equivalents

The following is a summary of cash and cash equivalents at June 30, 2005:

Deposits:		
Demand accounts		\$10,560,393
Cash equivalents:		
State Short-Term Investment Fund (STIF)	417,057	
Financial Investors Trust	1,603,772	
Cadre Securities	318,555	
MBIA, Inc. – Cooperative Liquid Assets Securities System (CLASS)	624,356	
UBS Fiduciary Trust Company	<u>16,396</u>	
 TOTAL CASH AND CASH EQUIVALENTS		<u>\$13,540,529</u>

Deposits

At June 30, 2005 the carrying amount of the Town deposits was \$10,560,393 and the bank balance was \$12,226,789.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the Town’s deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. Of the June 30, 2005 bank balance, \$400,000 was covered by Federal Depository Insurance. Connecticut General Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with Federal law) in an amount equal to a defined percentage of its public deposits based upon the depository’s risk based capital ratio. A minimum of \$1,222,679, based on June 30, 2005 deposits, was collateralized (collateral held by the pledging bank’s trust department is not in the Town’s name). The balance of deposits of \$10,604,110 was uninsured and uncollateralized.

Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. At June 30, 2005 the Town’s cash equivalents amounted to \$2,980,136. The following table provides a summary of the Town’s cash equivalents (excluding U.S. government guaranteed obligations) as rated by nationally recognized statistical rating organizations.

	<u>Standard and Poor’s</u>	<u>Moody’s Investor Service</u>	<u>Fitch Ratings</u>
State Short-Term Investment Fund (STIF)	AAAm		
Financial Investors Trust.....	AAAm		
Cadre Securities	AAAm		
MBIA, Inc. - Cooperative Liquid Assets Securities System (CLASS)	AA	Aaa	AAA
UBS Fiduciary Trust Company*			

*not rated

B. Investments

Investments as of June 30, 2005 in all funds are as follows:

<u>Investment Type</u>	<u>Fair Value</u>
Pooled open-end mutual fund accounts:	
UBS Fiduciary Trust Company	<u>\$7,687,026</u>

Interest Rate Risk – The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – Investments - As indicated above, State Statutes limit the investment options of cities and towns. The Town has no investment policy that would further limit its investment choices.

Concentration of Credit Risk –The Town’s investment policy does not allow for an investment in any one issuer that is in excess of five percent of the Town’s total investments.

Custodial Credit Risk – Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the Town or that sells investments to or buys them for the Town), the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At June 30, 2005, the Town did not have any uninsured and unregistered securities held by the counterparty, or by its trust department or agent that were not in the Town’s name.

5. RECEIVABLES

Receivables as of year end for the Town’s individual major funds and nonmajor, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Nonmajor and Other Funds</u>	<u>Total</u>
Receivables:			
Interest.....	\$ 78,196		\$ 78,196
Taxes	321,520		321,520
Accounts.....	520		520
Intergovernmental	2,386,412	\$17,941	2,404,353
	<hr/>		
Gross receivables.....	2,786,648	17,941	2,804,589
Less: allowance for uncollectibles	(35,000)		(35,000)
	<hr/>		
Net total receivables	<u>\$2,751,648</u>	<u>\$17,941</u>	<u>\$2,769,589</u>

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of

the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable (principal and interest)	\$ 232,413	
Advanced tax collections		\$ 50,328
Grant drawdowns prior to meeting all eligibility requirements ..		124,296
Intergovernmental receivables	<u>2,386,412</u>	<u> </u>
Total deferred/unearned revenue for governmental funds	<u>\$2,618,825</u>	<u>\$174,624</u>

6. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2005 was as follows:

Primary Government

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 5,037,810	\$ 206,700		\$ 5,244,510
Construction in progress	2,006,283	7,216,278		9,222,561
Total capital assets, not being depreciated ..	<u>7,044,093</u>	<u>7,422,978</u>		<u>14,467,071</u>
Capital assets, being depreciated:				
Buildings and improvements.....	40,785,640			40,785,640
Vehicles and equipment	7,558,136	394,857	\$(123,395)	7,829,598
Infrastructure	719,860	411,387		1,131,247
Total capital assets being depreciated	<u>49,063,636</u>	<u>806,244</u>	<u>(123,395)</u>	<u>49,746,485</u>
Less accumulated depreciation for:				
Buildings and improvements.....	(7,917,586)	(937,859)		(8,855,445)
Vehicles and equipment	(4,981,960)	(705,797)	82,443	(5,605,314)
Infrastructure		(28,794)		(28,794)
Total accumulated depreciation.....	<u>(12,899,546)</u>	<u>(1,672,450)</u>	<u>82,443</u>	<u>(14,489,553)</u>
Total capital assets, being depreciated, net..	<u>36,164,090</u>	<u>(866,206)</u>	<u>(40,952)</u>	<u>35,256,932</u>
Governmental activities capital assets, net..	<u>\$ 43,208,183</u>	<u>\$ 6,556,772</u>	<u>\$ (40,952)</u>	<u>\$ 49,724,003</u>

Depreciation expense was charged to functions/programs of the Town as follows:

Governmental activities:

General government.....	\$ 45,329
Public safety.....	72,971
Public works and environment.....	148,468
Recreation and social services	61,647
Education	<u>1,344,035</u>
Total depreciation expense - governmental activities.....	<u>\$1,672,450</u>

The Town has not implemented the retroactive reporting requirements related to infrastructure assets. In accordance with GASB Statement No. 34 the Town has until June 30, 2007 to report previously acquired infrastructure assets.

Construction Commitments

The Town has active construction projects as of June 30, 2005. The projects include the Municipal Complex, High School renovations, Kearns classroom addition, Elementary School projects, a bridge program, and repairs to Canton Road. At year end the Town’s commitments with contractors are as follows:

<u>Project</u>	<u>Appropriations</u>	<u>Expenditures and Encumbrances</u>	<u>Uncommitted Balance June 30, 2005</u>
High School renovations.....	\$22,611,500	\$22,595,425	\$16,075
Kearns classroom addition.....	\$1,645,000	\$1,644,489	\$511
Elementary Schools	\$50,000	\$47,399	\$2,601
Bridge program.....	\$200,000	\$152,630	\$47,370
Canton Road	\$470,000	\$460,091	\$9,909
Kelley Lane School.....	\$12,120,140	\$845,159	\$11,274,981
Wells Road School.....	\$12,307,080	\$11,667,019	\$640,061

The commitments are being financed through General Fund appropriations, State and Federal grants, and the issuance of general obligation bonds.

7. INTERFUND RECEIVABLE AND PAYABLE BALANCES

During the course of operations, transactions are processed through a fund on behalf of another fund. Additionally, revenues received in one fund are transferred to another fund. A summary of interfund balances as of June 30, 2005 is presented below:

<u>Receivable</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund.....	Capital Projects Fund	\$1,113,163
General Fund.....	Nonmajor Governmental Funds	24,995
Internal Service Fund	General Fund	1,233,040
Capital Projects Fund	General Fund	5,199,200
Nonmajor Governmental Funds.....	General Fund	3,555,900
Agency Fund.....	General Fund	<u>344,506</u>
TOTAL		<u>\$11,470,804</u>

Interfund receivables and payables generally represent temporary balances arising from reimbursement type transactions.

Interfund transfers:

Transfer In.....			
	General Fund	Capital Projects Fund	Nonmajor Governmental	Total
Transfer out:				
Nonmajor Governmental Fund	\$973,081			\$ 973,081
General Fund.....		\$735,000	\$ 943,101	1,678,101
Capital Projects Fund.....			425,000	425,000

Total transfers out.....	\$973,081	\$735,000	\$1,368,101	\$3,076,182

Transfers are for regular recurring operational transfers.

8. LONG-TERM DEBT

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2005, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Bonds payable:					
General obligation bonds .	\$21,580,000	\$ 9,750,000	\$10,737,500	\$20,592,500	\$1,697,500
Less deferred amounts:					
For issuance discounts on refunding		(705,000)		(705,000)	
		-----		-----	
Total bonds payable.....	21,580,000	9,045,000	10,737,500	19,887,500	1,697,500
Capital leases	1,013,547	322,500	339,990	996,057	336,766
Claims and judgments.....	185,823	2,801,983	2,772,089	215,717	215,717
Compensated absences.....	770,620	237,541	292,836	715,325	271,823
Landfill post closure	149,400		13,000	136,400	13,000
Net pension obligation	90,841	918		91,759	
		-----		-----	
Governmental activity long-term liabilities	\$23,790,231	\$12,407,942	\$14,155,415	\$22,042,758	\$2,534,806
		-----		-----	

A schedule of bonds at June 30, 2005 is presented below:

<u>Description</u>	<u>Principal Amount</u>
\$1,050,000 – Sewer improvement bonds issued March 1, 1984 and maturing March 1, 2012; interest at 5%.....	\$ 262,500
\$6,000,000 – School improvement bonds issued June 15, 1991 and maturing June 15, 2011; interest from 5.9% to 7.9%.....	1,800,000
\$3,500,000 – School improvement bonds issued April 2, 1992 and maturing April 1, 2011; interest from 6.0% to 6.7%.....	1,150,000
\$9,090,000 – General, school improvement, and refunding bonds issued December 15, 1998 and maturing December 15, 2019; interest from 3.75% to 4.1%	4,455,000
\$11,560,000 – School improvement bonds issued February 1, 2000 and maturing February 1, 2020; interest from 5.25% to 7.0%	3,175,000
\$9,750,000 – General obligation refunding bonds issued March 24, 2005 and maturing on February 1, 2020; interest rate 3.9%	<u>9,750,000</u>
 TOTAL	 <u><u>\$20,592,500</u></u>

The following is a schedule of future debt service requirements as of June 30, 2005:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2006	\$ 1,697,500	\$ 875,779	\$ 2,573,279
2007	1,702,500	842,473	2,544,973
2008	1,707,500	752,585	2,460,085
2009	1,737,500	662,248	2,399,748
2010	1,817,500	570,020	2,387,520
2011	1,677,500	477,923	2,155,423
2012-2016.....	5,967,500	1,516,541	7,484,041
2017-2020.....	<u>4,285,000</u>	<u>386,880</u>	<u>4,671,880</u>
 TOTAL	 <u><u>\$20,592,500</u></u>	 <u><u>\$6,084,449</u></u>	 <u><u>\$26,676,949</u></u>

The Town's indebtedness does not exceed the legal debt limitations as required by the Connecticut General Statutes as reflected in the following schedule:

<u>Category</u>	<u>Debt Limit</u>	<u>Net Indebtedness</u>	<u>Balance</u>
General purpose.....	\$56,649,647	\$13,903,000	\$42,746,647
Schools.....	\$113,299,295	\$32,190,588	\$81,108,707
Sewers.....	\$94,416,079	\$262,500	\$94,153,579
Urban renewal.....	\$81,827,268		\$81,827,268
Pension deficit	\$75,532,863		\$75,532,863

The definition of indebtedness includes bonds outstanding in addition to the amount of bonds authorized and unissued against which debt is issued and outstanding. School building grants receivable for bond principal of \$2,386,412 are reflected in the computation of net indebtedness.

The total overall statutory debt limit for the Town is equal to seven times annual receipts from taxation (\$176,243,347).

On March 24, 2005, the Town issued \$9,750,000 in General Obligation Bonds with an interest rate of 3.9% to advance refund \$9,045,000 of outstanding General Obligation Bonds with interest rates ranging from 4.40% to 5.80%. The net bond proceeds of \$9,696,213 (after payment of \$53,787 of issuance costs), were used to purchase U.S. Treasury Securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds until their call dates. The refunded general obligation bonds are considered to be defeased and the liability for them has been removed from the government-wide statement of net assets. At June 30, 2005, \$9,045,000 bonds outstanding are considered defeased.

The Town advance refunded the general obligation bonds to reduce its total debt service payments by \$480,339 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$440,084.

In prior years, the Town defeased the 1990 General Obligation Bonds by creating a separate irrevocable trust. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore are no longer counted in computing Town's debt for statutory debt limit purposes. As of June 30, 2005, the amount of defeased debt outstanding amounted to \$1,230,000.

9. LEASES AND BOND ANTICIPATION NOTES

Operating Leases

The Town leases various vehicles, equipment and technology under capital lease arrangements. These leases vary in duration through January 2, 2008, and interest rates from 2.60% to 5.65%.

Capital Leases

A summary of future minimum lease payments required by the lease agreements together with the present value of the net minimum lease payments as of June 30, 2005 is as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>
2006.....	\$ 364,905
2007.....	276,645
2008.....	230,109
2009.....	114,318
2010.....	<u>70,439</u>
Total	1,056,416
Less amount representing interest.....	<u>(60,359)</u>
TOTAL	<u>\$ 996,057</u>

Bond Anticipation Notes

Notes payable, July 1, 2004	\$ 1,021,000
Notes issued	13,445,000
Notes retired.....	<u>(4,521,000)</u>
Notes payable, June 30, 2005.....	<u>\$ 9,945,000</u>

The notes are dated February 16, 2006 with a coupon rate of 3.25% and they mature on August 19, 2004.

10. LANDFILL POSTCLOSURE CARE COSTS

The Granby landfill stopped accepting solid waste, except for brush, in 1988. The landfill has been capped and final closing procedures are in the process of being completed as required by the U.S. Department of Environmental Protection adopted regulations, 40 CFR, Part 258 (“Subtitle”).

An authorization was established in the Solid Waste Sanitation Fund for landfill closing costs based on estimates made by the Town Engineer. This fund incurred \$13,000 in expenditures associated with the closing of the landfill for the year June 30, 2005.

The landfill closure obligation of \$136,400 reported in the statement of net assets represents an estimate made by the Town Engineer of the postclosure monitoring costs to be incurred by the Town over the next twenty years.

11. RISK MANAGEMENT

The Town is exposed to various risks of loss including torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town generally obtains commercial insurance for these risks, but has chosen to retain the risks for employee insurance coverage. There has been no significant reduction in insurance coverage from the prior year for the categories risk insured commercially. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

The Town retains the risk associated with employee health insurance (medical and dental claims plus prescription drugs) up to a maximum of \$100,000 per individual claim with an aggregate stop loss estimated at \$3,100,000. As of June 30, 2005, the Town has established a liability of \$215,717 to cover health insurance claims incurred but unreported. This claim liability is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability claims be reported if information prior to the issuance of the financial statements indicates it is probable a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the claims liability were:

	Liability <u>July 1,</u>	Current Year Claims and Changes in <u>Estimates</u>	Claim <u>Payments</u>	Liability <u>June 30,</u>
2003-2004	\$138,948	\$2,270,312	\$2,223,437	\$185,823
2004-2005	\$185,823	\$2,801,983	\$2,772,089	\$215,717

12. CONTINGENT LIABILITIES

The Town of Granby is a defendant in a number of lawsuits. It is the opinion of management that such pending litigation will not be finally determined so as to result in a judgement or judgements against the Town which would materially affect its financial position.

13. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS

A. Plan Descriptions

The Town of Granby is the administrator of a single-employer Public Employee Retirement System (PERS) established and administered by the Town to provide pension benefits for its employees. The PERS is considered to be a part of the Town of Granby’s financial reporting entity and is included in the

Town's financial reports as a Pension Trust Fund. The Plan does not issue a separate stand alone financial report.

The Town provides retirement benefits through a single employer, contributory, defined benefit plan. All employees of the Town hired prior to age 25 may elect to participate on their date of hire. Bargaining unit employees hired on or after October 1, 2000 may elect to participate after one year of continuous service. Under the plan, for regular certified officers of the police department, the retirement benefit is calculated at 2.5 percent of the average of the annual salaries, including overtime of the 5 calendar years with the highest average multiplied by up to 20 years of service plus 1.5 percent of the average of the annual salaries, including overtime, of the 5 calendar years with the highest average multiplied by in excess of 20 years maximum 10 years of service. For non-union members other than regular certified officers of the police department, the retirement benefit is calculated at 2.0 percent of the average of the annual salaries of the last 5 years immediately prior to retirement multiplied by years of service. Effective June 1, 2000 for Bargaining unit members the retirement benefit is calculated at 2 percent of the average of the annual salaries of any 5 years period producing the highest average prior to retirement multiplied by years of service. Participants are 100 percent vested after 5 years of service. If an employee leaves covered employment before 5 years of service, accumulated employee contributions and related investment earnings are refunded. Benefits and contributions are established by Town ordinance and may be amended. The major features of the plan are as follows:

Normal Retirement Age: Age 62 with 35 years of continuous service (effective July 1, 1994, age 62 and 25 years for a certified police officer) or age 65 regardless of service.

Credited Service: All service from date of participation in the plan until Normal Retirement Date, including all full months of Continuous Service.

Early Retirement: May be elected with the consent of the Board of Selectmen or Education upon completion of at least 15 years of Continuous Service and within 10 years of normal Retirement Date. Effective February 1, 2000, a certified Police Officer may elect early retirement upon completion of 20 years of service and attained age 55. Benefit is calculated as for normal retirement and reduced actuarially.

Late Retirement: With consent of Boards of Selectmen/Education. Benefit accrues until actual Retirement Date.

Disability Retirement: Available on total and permanent disability after 15 years of continuous service and age 50. Benefit is the same as for early retirement.

Death: Before retirement, refund of Participant's contributions plus interest. After retirement, refund of excess, if any, of Participant's accumulated contributions as of his or her retirement date over total of benefits paid.

At July 1, 2003 PERS membership consisted of:

Retirees and beneficiaries currently receiving benefits	20
Terminated employees entitled to benefits but not yet receiving them	5
Current employees:	
Vested	57
Nonvested	<u>16</u>
TOTAL.....	<u>98</u>

B. Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting: The PERS financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed.

Method Used to Value Investments: Investments are reported at fair value. Investment income is recognized as earned. Gains and losses on sales and exchange of investments are recognized on the transaction date. There are no investments in any organization, other than U.S. Government notes and bonds, that represent 5% or more of net assets available for benefits.

C. Funding Status and Progress

Certified police officers are required to contribute 6.0% of their salary, including overtime, to the PERS. All other members contribute 5.0% of their gross salary, excluding overtime and any other form of additional compensation. Effective January 1, 2004, bargaining unit employees contribute 4% of salary, including overtime and additional compensation. The Town is required to contribute the remaining amounts necessary to finance coverage. The Town’s annual required contribution for June 30, 2005 was \$286,552 or 8.6% of covered payroll. Benefits and employee contributions may be amended by the Board of Selectmen through ordinance.

D. Annual Pension Cost and Net Pension Obligations

The Town’s annual pension cost and net pension obligation to the Town’s Retirement System for the current year were as follows:

Annual required contribution	\$286,552
Interest on net pension obligation	7,267
Adjustment to annual required contribution.....	<u>(6,349)</u>
Annual pension cost	287,470
Contributions made	<u>286,552</u>
Increase in net pension obligation	918
Net pension obligation (asset) beginning of year	<u>90,841</u>
Net pension obligation (asset) end of year	<u>\$ 91,759</u>

The following is a summary of certain significant actuarial assumptions and other PERS information:

Actuarial valuation date.....	July 1, 2003
Actuarial cost method.....	Projected unit credit
Amortization method.....	Level Dollar
Remaining amortization period	14 years, closed
Asset valuation method	Adjusted Fair Value
Actuarial assumptions:	
Investment rate of return*	8.0% per annum
Projected salary increases	4.0% per annum

*Includes inflation at a rate of 2.5%.

E. Trend Information

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation is presented in Section D above.

G. Teachers' Retirement

All Town of Granby Board of Education certified employees participate in the State of Connecticut Teachers' Retirement System under Section 10.183 of the General Statutes of the State of Connecticut. A teacher is eligible to receive a normal retirement benefit if he or she has: (1) attained age sixty and has accumulated twenty years of credited service in the public schools of Connecticut, or (2) attained any age and has accumulated thirty-five years of credited service, at least twenty-five years of which are service in the public schools of Connecticut.

The Board of Education withholds 7.25% of all teachers' annual salaries and transmits the funds to the State Teachers' Retirement Board. The retirement system for teachers is funded by the State based upon the recommendation of the Teachers' Retirement Board. Such contribution includes amortization of actuarially computed unfunded liability. The Town does not have any liability for teacher pensions. For the year ended June 30, 2005, the Town has recorded, in the General Fund, intergovernmental revenue and education expenditures in the amount of \$663,297 as payments made by the State of Connecticut on-behalf of the Town.

The State of Connecticut Teacher Retirement System is considered to be a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports may be obtained by writing to the State of Connecticut, Office of the State Comptroller, 55 Elm Street, Hartford, Connecticut 06106.
