

Motor Vehicle Adjustment & Your Tax Bill

Q: How do I get my motor vehicle tax bill adjusted?

A: The Town of Granby requires one document to remove a vehicle from the tax bill. The document must be dated and reflect the Vehicle's Identification Number (VIN). Vehicles that are owned/possessed are subject to taxes.

Acceptable Documentation:

- PLATE RECEIPT from the Dept. of Motor Vehicles (DMV) indicating that the registration was: CANCELLED, LOST, or STOLEN, **NOT** EXPIRED/SUSPENDED
- Bill of Sale
- New Owner Registration with issue date
- Title showing transfer
- Verification from Insurance Company stating vehicle was sold
- Verification from Insurance Company stating vehicle was stolen and not recovered
- Salvage receipt from junk yard
- Out of state registration
- Proof of residency in another town prior to October 1st
- Notice of Correction from the DMV
- Letter from finance company stating vehicle was repossessed
- A letter from the charitable organization where you donated the vehicle

When the Registration/Plates are transferred to a replacement vehicle, the adjustment "follows" the Registration, whereby over payment on the July tax is applied to the replacement vehicle tax in January.
