

Transportation

Roadway Functional Classification

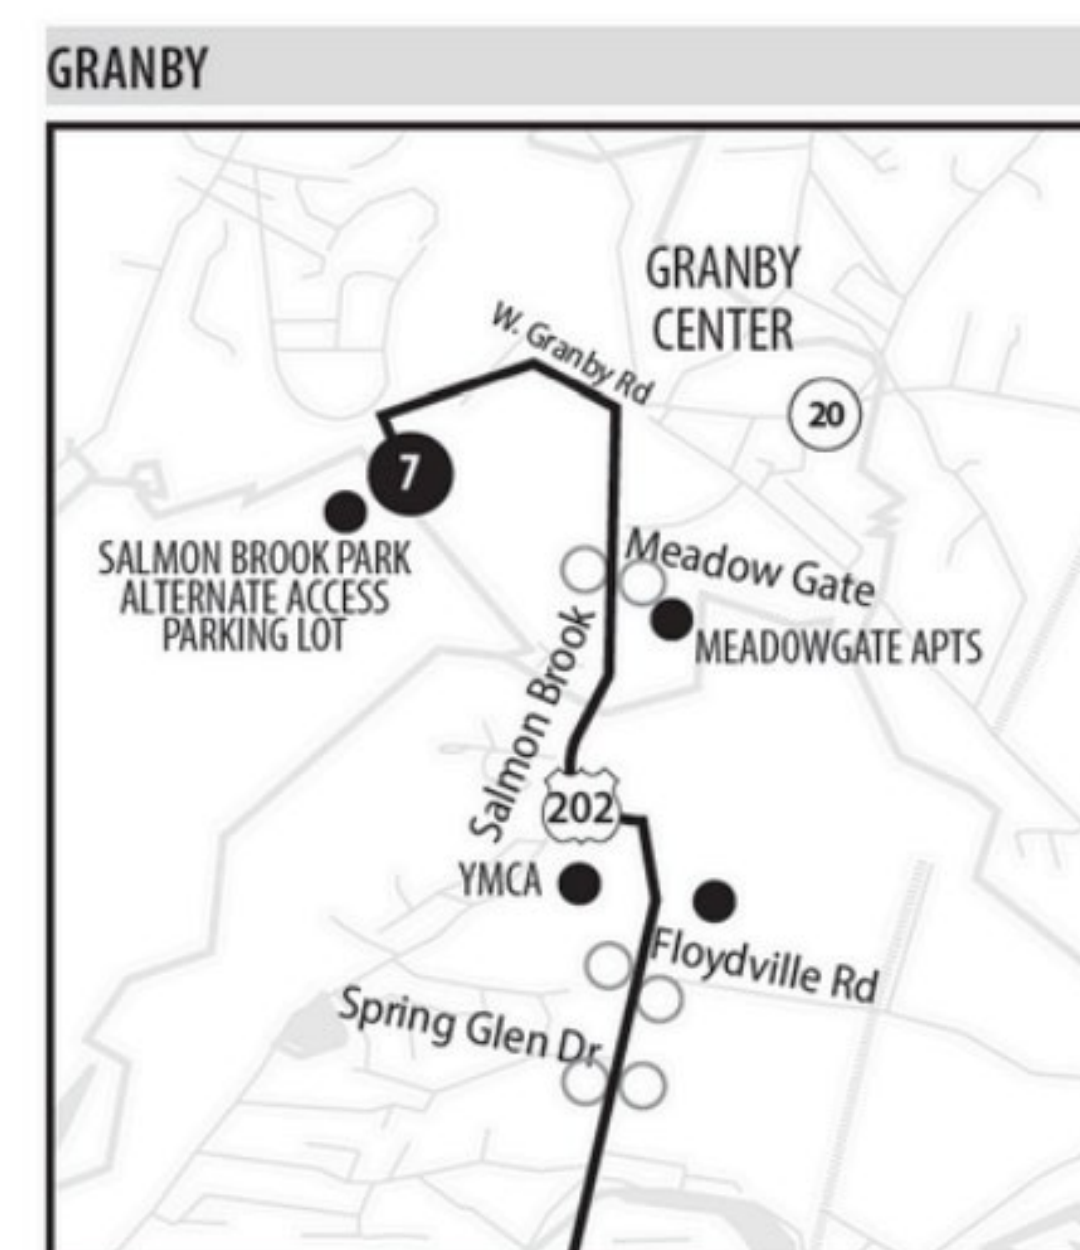

Source: CT DOT GIS Data

Major collector – collects traffic from local roads and directs it to higher-capacity arterial roads
 Minor collector – collects traffic from local roads and connects it to major collector or arterial roads
 Minor arterial – connects principal arterial roads to smaller streets
 Other principal arterial – major road within the region that serves to move a high volume of traffic over a longer distance

Sidewalks – Granby Center

CTTransit Commuter Bus

Sidewalks and Farmington Canal Heritage Trail

red = sidewalks
 yellow = canal trail
