ADDENDUM No. 1

April 20, 2021

Bridge No. 055014 & 055002
Hungary Road Bridge over Quarry Brook
And
Griffin Road Bridge over Hungary Brook
Granby, Connecticut

Question #1
The project appears to be missing the Lump Sum items Construction Staking (Survey), M&P, and Mobilization items.

Answer #1
These items have been added, please see attached updated schedule of prices.

Question #2
The estimated cost total for Municipal officers is blank (0970006).

Answer #2
The cost has been included, please see attached updated schedule of prices.

Question #3
Supplemental Streambed Material only appears on the Hungary Road Bridge. Is this item needed on the Griffin Road Bridge as well?

Answer #3
No, Supplemental Streambed Material is only required on the Hungary Road Bridge.

Question #4
How do we address a credit if we are awarded both bridges?

Answer #4
A bid credit summary has been included, please see attached.

Question #5
Can an Item for "Obstructions" be added to the Bid Item Sheet so if any are encountered during Pile Driving there will be a unit Cost for that work.

Answer #5
The item and spec for “Obstructions” has been included.
TOWN OF GRANBY  
SCHEDULE OF PRICES  
FOR THE CONSTRUCTION OF  
STATE PROJECT NO. 9055-002  
REPLACEMENT OF BRIDGE NO. 055002  
GRIFFIN ROAD OVER HUNGARY BROOK  

NOTE: The bidder shall fill in, under the column "Unit Prices Bid," the unit prices, written in words and in numbers, for which he proposes to perform the various items of work called for, and under the column headed "Amount," the amount of each of the items at the unit price bid. After the proposal is opened and read, the quantities will be extended and totaled in accordance with the written unit prices and the proposal verified or corrected.

STATE PROJECT NO. 9055-002
REPLACEMENT OF BRIDGE NO. 055002
GRIMM ROAD OVER HUNGARY BROOK

Contractor_________________________________________

BID OPENING Monday April 26, 2021
TIME: 12:00 P.M. NO BIDS WILL BE ACCEPTED AFTER 12:00 P.M. "NO EXCEPTIONS"

Note: The bidder shall fill in, under the column "Unit Prices Bid," the unit prices, written in words and in numbers, for which he proposes to perform the various items of work called for, and under the column headed "Amount," the amount of each of the items at the unit price bid. After the proposal is opened and read, the quantities will be extended and totaled in accordance with the written bid prices and the bid will be verified or corrected.

Kindly insert here the total amount of your Bid $ _______________

It is understood that the unit prices shall govern in case of discrepancy between the unit-prices and this amount.

This bid includes addenda no.: ______

CONTRACT TIME AND LIQUIDATED DAMAGES

1. For this contract, an assessment per day for liquidated damages, at a rate of One Thousand Five Hundred Dollars ($1,200.00) per day shall be applied to each calendar day the work runs in excess of the Two Hundred Thirty (230) allowed calendar days for the contract.

Note: PRIME CONTRACTOR’S REQUIREMENTS:

A. Proposal Guaranty (Bid Bond): Except when otherwise specified, no proposal will be considered unless accompanied by a proposal guaranty in the form of a bond furnished by a surety company, satisfactory to the Engineer, in an amount equal to at least 5% of the amount of the bid, or unless the bidder has on file in the Town, an annual bid bond in the proper amount.

The surety must be a corporate surety licensed to sign surety bonds in the State of Connecticut.

B. Not less than 12% of the total Contract value shall be subcontracted to, performed by, and paid to Disadvantaged Business Enterprise(s) DBE.

C. If the Contractor is unable to fulfill the DBE’s percentage requirement, he may request an exception of the above percentage, by completing and submitting to the Town, the "Application for Review of Pre-award Good Faith Efforts", as contained in the General Provisions.

D. Contractors must make sure that at the time of bidding, their Firms have an approved Affirmative Action Plan with the State of Connecticut, Department of Transportation.

E. The low bidder is required to submit to the Town, both a Certificate of Insurance and a Workers' Compensation Certificate on or before the signing of the Contract.

F. Statement of Bidder's Qualifications: Each bidder is required to submit to the Town a recent sworn statement of the bidder's qualifications the form furnished by the Town for this purpose.

G. Contracts will not be awarded until the above requirements have been submitted and approved.

H. Please be aware that the Town, prior to the awarding of the Contract, may require further financial and other information from any applicant who becomes the low bidder for that Contract.

ITEM #0702048A - OBSTRUCTIONS

Work under these items shall conform to the requirements of Section 7.02, altered and supplemented as follows:

7.02.01 – Description:
This work shall include the removal of obstructions, should they be encountered, during driving of steel piles.

7.02.03 – Construction Methods:
Obstructions: When obstructions are encountered while driving steel piles, the Contractor shall notify the Engineer of them immediately. Obstructions are defined as impenetrable objects that:
(a) Piles cannot be driven through; or
(b) Cause a significant decrease in the rate of pile driving, relative to the rate of pile driving for the rest of the piles driven within the particular strata where the obstruction is located that had been achieved using the same techniques and equipment that had previously been used successfully to drive the pile.

The Engineer will be the sole judge of the significance of any reduced rate of shaft advancement and of the classification of obstruction excavation. The Engineer will be present at the site of the obstruction in order to evaluate obstructions, to authorize measures for dealing with them, and to approve the designation of each obstruction. Sloping bedrock or bedrock that is higher than anticipated by the plans shall not be considered as requiring obstruction excavation.

The Contractor shall remove all subsurface obstructions at pile locations. Such obstructions may include man-made materials, such as concrete foundations, and natural materials, such as boulders. Subsurface obstruction removal special procedures/tools may include, but are not limited to, chisels, boulder breakers, core barrels, down-the-hole hammers, air tools, hand excavation, temporary casing, and increases of the hole diameter. Blasting shall not be permitted unless approved in advance in writing by the Engineer.

7.02.04 – Method of Measurement
Obstructions will be measured for payment, after designation as an obstruction by the Engineer, by the number of hours of work, or fraction thereof per obstruction, required to remove the obstruction.

7.02.05 – Basis of Payment:
Obstructions: Removal of obstructions will be paid for at the Contract unit price per hour for “Obstructions” complete, including all labor, equipment, materials, excavation of obstructions, water control, and disposal of excavated material necessary.
