Town of Granby
Building Department Inspection Procedures

As the COVID-19 pandemic continues to affect day to day life for us all, in an effort to protect both the community and our employees, the Building Department has made the following changes to its procedures* effective Monday March 30, 2020:

- All interior residential inspections for single family homes and occupied multi-family units are suspended until further notice.

- Outdoor inspections for residential properties will continue at this time.

- New unoccupied residential and commercial inspections may continue.

- All in-person consultations/meetings to review plans and projects are suspended until further notice.

- If any member of a household, contractor, or member of a construction team becomes ill or exhibits symptoms, please call the office to cancel the inspection appointment.

- Town staff may decline or schedule an inspection at their discretion, including for emergencies/life safety issues.

- The Building Official may accept photographs in lieu of an inspection. Contact the Building Department in advance to discuss the specific circumstances.

Building Department staff is available by phone and email to answer any questions and will continue to accept and process permits as they are submitted. Permits and plans are accepted by email, U.S. mail, and drop box located at the Town Hall.

We appreciate your understanding and cooperation.

*Please note, these measures may change as more information becomes available.
